**PURSUANT TO THE TELECOMMUNICATIONS ACT OF 1996**

COME NOW, Sprint Communications Company Limited Partnership and Sprint Communications Company L.P. ("Sprint CLEC") and BellSouth Telecommunications, Inc., ("BellSouth"), and file this request for approval of the Amendments to the Interconnection Agreement dated January 1, 2001 (the "Amendment") negotiated between the two companies pursuant to Sections 251 and 252 of the Telecommunications Act of 1996, (the "Act"). In support of their request, Sprint CLEC and BellSouth state the following:

1. Sprint CLEC and BellSouth have successfully negotiated an agreement for interconnection of their networks, the unbundling of specific network elements offered by BellSouth and the resale of BellSouth's telecommunications services to Sprint CLEC. The Interconnection Agreement was approved by the Tennessee Regulatory Authority ("TRA") on September 9, 2002
2. The parties have recently negotiated three Amendments to the Agreement. The first Amendment replaces Section 4.8, Attachment 3, Network Manager language in the Agreement; the second Amendment incorporates new USOCs and rates for

QuickServe and the third Amendment incorporates new language and rates for Melded Tandem Switching. Copies of the Amendments are attached hereto and incorporated herein by reference.

3. Pursuant to Section 252(e) of the Telecommunications Act of 1996, Sprint CLEC and BellSouth are submitting their Amendments to the TRA for its consideration and approval. The Amendments provide that either or both of the parties are authorized to submit the Amendments to the TRA for approval.

4. In accordance with Section 252(e) of the Act, the TRA is charged with approving or rejecting the negotiated Amendments between BellSouth and Sprint CLEC within 90 days of its submission. The Act provides that the TRA may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity.

5. Sprint CLEC and BellSouth aver that the Amendments are consistent with the standards for approval.

6. Pursuant to 47 USC Section 252(1) and 47 C.F.R. Section 51.809, BellSouth shall make available the entire Interconnection Agreement filed and approved pursuant to 47 USC Section 252.

Sprint CLEC and BellSouth respectfully request that the TRA approve the Amendments negotiated between the parties.

This 22 day of FEB, 2005.

Respectfully submitted,

BELLSOUTH TELECOMMUNICATIONS, INC.

WHEREAS, BellSouth and Sprint entered into the Agreement on January 1, 2001, and,

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows

- 1      The Parties agree to add the following provision to Attachment 2, Section 11.1 and the associated rates as set forth in Exhibit 1 of this Amendment, attached hereto and incorporated herein by this reference

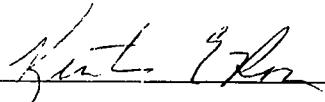

11.1.1 Where Sprint utilizes portions of the BellSouth network in originating or terminating traffic, the Tandem Switching rates are applied in call scenarios where the Tandem Switching Network Element has been utilized. Because switch recordings cannot accurately indicate on a per call basis when the Tandem Switching Network Element has been utilized for an interoffice call originating from a UNE port and terminating to a BellSouth, Independent Company or Facility-Based CLEC office, BellSouth has developed, based upon call studies, a melded rate that takes into account the average percentage of calls that utilize Tandem Switching in these scenarios. BellSouth shall apply the melded Tandem Switching rate for every call in these scenarios. BellSouth shall utilize the melded Tandem Switching Rate until BellSouth has the capability to measure actual Tandem Switch usage in each call scenario specifically mentioned above, at which point the rate for the actual Tandem Switch usage shall apply. The UNE Call Flows set forth on BellSouth's website, as amended from time to time and incorporated herein by this reference, illustrate when the full or melded Tandem Switching rates apply for specific scenarios.

- 2 All of the other provisions of the Agreement, dated January 1, 2001, shall remain in full force and effect
- 3 Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996
